Profile

I have a great interest in interacting with other people and computer programming. I enjoys myself to be a public speaker as well as talking in private with other person. I like to hear what people says and give them advices based on my opinion when necessary. I have a good understanding on what people want to say, so they won't have to repeat what are they saying. Based on my education, i have a great proficiency in computer programming which include desktop application, web application, and also mobile application. I am able to work well on my own initiative and can demonstrate the high levels of motivation required to meet the tightest of deadlines. Even under significant pressure, I possess a strong ability to perform effectively. As a hobby, i like to do graphic designing. I am able to create minimalist design for business purpose as well as advertisement. I have good experience with iPhone application development as I make a 3D labyrinth game on iPhone as my Bachelor degree thesis which graded with A. I completed my Bachelor degree in Informatics with GPA 3.50 (out of 4).

Experience

Honorary Assistant, Sekolah Tinggi Teknik Surabaya Indonesia, 2007

As an honorary assistant, I am responsible for helping the assistant in computer laboratory activities. I am also responsible for helping the students to understand the lesson topic given by the assistant.

Assistant, Sekolah Tinggi Teknik Surabaya Indonesia, 2008-2010

As an assistant, I am responsible grading the students during their lab activities. I am also responsible for providing the lesson topic of the lab activities by consulting with the lecturer. This job also requires me to maintain the laboratory computer and networking facilities to ensure them in good state.

Web Programmer, ZeroOne Indonesia, 2009

I do PHP and JavaScript programming to develop web based internet application. The web types are including community sites and e-commerce web sites.
